Seven Men Killed.

Mason City. Ia., Sopt. 25.—The worst railroad accident that has ever eported from New Hampton yeste day. It happened but a short distance from the scene of the Wapsic wrock two years ago. Last night seven dead bodles laid out in Kanichboth's undertaking establishment told the sad story of negligence, and that is not all. One more body can now be seen under the ongline, and it will be many hours before the body can be reached. A little girl's hat and a woman's cloak have been found in the wreck. It is feared that at least these two are buried under the debris The men killed were residents of El-mira and vicinity. Michael McNamara, of Independence, a traveling man, was

A numerically strong faction; consisting of uninfluential members, however, will make every effort to oust Dr. Pierson and install Thomas Spurgeon, who, they say, in his three months service in the pulpit limmediately after his father's death showed himself to be in able and broad-minded preacher. Thomas Spurgeon is more than willing to accept his father's place. It is sup-porters are circulating in the congre-gation a petition, returnable Wednesday next, requesting the officers of the church to grant the wish implied in one of their late paster's last sermons, that his son should succeed him.

The adherents of Mr. Plarson urged the dencons to hold at once a special church meeting to extend formally the call to him. If this meeting be held, the anti-Pierson party will insist that the correspondence as to Dr. Pierson's return to London to be produced.

The case has been under in-vestigation by Secretary of State Fos-ter for the past month, and definite action was taken on Saturday. Mr. Johnson was first appointed to the consular service in 1872, and has several times undergone investigation and was once relieved, but soon re-entered the service, and has maintained his posi-tion upon the representation that he was repeatedly wounded at various battles during the civil war, and was thereby greatly impaired in health. Recent charges as to his accounts and

THE MONETARY CONFERENCE

No Likelihood of Its Early Meeting—Se ator Allison's Relation to It.

WASHINGTON, Sept. 26.—There has been no arrangement yet concluded for holding the international monetary conference. Correspondence on the subject of a place for the meeting was interrupted by the presence of the cholera scare, and it is now as uncertain as ever where the conference will be held. A date for its assembling, which cannot well be announced until which cannot well be announced until after the place of meeting has been agreed upon, is of course, equally matter of doubt.

Treasury officials say it is doubtless.

the basis of the report printed in some of the western papers that Senator Allison, of Iowa, one of the commissioners from the United States could not attend the conference, but remain in Iowa during the campaign. There is no probability now that the confer is no pronountly now that the conter-ence will be held until after the che-tion, so that the senator may, without regard to that event, continue his cam-paign services without interuption.

But the delay may result in losing to the country and the conference the services of Senator Allison. He is chairman of the senate committee on

appropriations, and his absence would seriously cripple the committee in its works. This is especially true at this time. The next session of congress will be a select one lection but the be a short one, lacting but three months, including the heliday recess The work of the committee is usuall done to a considerable extent in the morth that intervenes between election and the meeting of congress. In view of the importance of the task, com-mitted to him by the senate, it is not improbable that Senator Allison may conclude that he can be of much more ervice in Washington than at the mon etary conference, and decide to remain at home. There has, however, been mofficial correspondence on the subject— it has only been informally considered

New Orlhans, Sept. 26.—A sensution was caused among the sport-loving peo-ple of the city when it became known hat there was a good sized row among the members of the Olympic club be-fore which so many noted pugilistic events have been contested and decided. Saturday publication was made over the signature of a stockholder that an informal meeting of the club would be held on Monday night to discuss mat-ters of importance. The fact that the card did not bear the usual signature of the secretary of the club, Mr. Ross occasioned some comments.

The facts in the case were asc tained to be that at the meeting of the board of directors of the club, last Wednesday, that body voted to give President Noel the sum of \$1,500 as a return for the money spent in promo-ting the fistic events which took place ting themsite events which took place beforce the organization this month. My mother had an obstinate cough and she has been troubled with it for about fifteen yeers. She tried other kinds of medicines but they did no good. We heard of your remedy and hought it. The first bottle helped her right away so we got half a dozen bottles. She took them and is now sound and well, and can sleep nights without being distorbed. I have three little girls. Last February they took the grips and coughed so hard I was afraid to go to bed for fear they would strangle. I gave them Reid's German Cough and Kidney Cure and they were well before they took near the whole bottle, and they have been sounder and healthier than they ever were before. They always were troubled with coughs and I shall always praise your remedy our it.

The Review and Mr. Webber were parties to a scheme to reach and imparts. I. R. Fifer's Fight.

Au intrenched enemy is secure only in proportion to the strength of his center and the security of his flunks. This seems to have been time of John P. Altgelil's attitude in this campaign. So long as he maintained his center by appealing to religious prejudice, and his flanks by the use of his barrel and handfishks by the use of his barrel and handshakee, it gave some disconragement for his center by making a speech attacking Covernor Fifer's administration and the management of state prisons and other the line for Altgeld. Governor Fifer was quick to see the mistake of a man who is unning a campaign on his own account and with banners flying he marched upon the depleted center, broke the thin line, put Altgeld's route and took away every commanding position by two magnificent speeches, one in answer to Altgeld's attack upon the management of the state institutions and the other in which he used Altgeld, who began life in this country as a poor boy and is now worth his millions, as an example of the possibilities open to poor men in this country under the laws which Altgeld argues are oppressive to the poor and discriminate in favor of the rich. By these replies Governor Fifer has put and with banners flying he marched these replies Governor Fifer has put Tyler. bimself and his party squarely in pos-session of the fight and from this on Altgeld will be at a great disadvantage.

Well, does not Andy Hunter display a good deal of gall in running at all, after his party slapped him in the face when he wanted to be governor, and gave the comination to Altgeid? The facts are, Andy Hunter is running entirely on gal!.

Amor Hunter was in the position of the frontier preacher who when he ran into a diffemma with an illustration and was about to destroy his picture said:

"Brethren, we will not pursue the subject any further." When Andy got his Macon county termer back to the port of New York with his cargo of wheat which he could not get on the American market without paying a duty of 25 cents a vival of the old state banks of mene, but the vast majority of the papers of that party in these sections were altogether silent in the matter until the declaration of the Chicago convention compelled them to take some notice of it. It a straight vote on that question were had in the North Atlantia seaboard states the North Atlantic seaboard states the proposition would be boaten by a vote of four to one Cleveland is against it, and propably so are the great majority of the Democratic leaders all over the country. This issue will prove of immense tervice to the Republicans, as both Harrison and Blaine clearly personalize. In the artifus and critical period. both Harrison and Blaine clearly perceive. In the exciting and critical period of the campaigo, which is from the present on to election day, the Republicates in New York and the remainder of the Eastern states will give a good deal of attention to this issue. All the Republicans are on the sound and sate side on this question, and they will compel the Eastern Democracy to shuttle or repudate this plank of the platform or otherwise to reveal the blunder which the farmers of that deliverance committed. WE THE UNDERSIGNED, contracting plasterers, after much experience and observation, take pleasure in testifying to the practical character of ROCK PLASTER, and while it will remove a not inconsiderable amount of business, namely that of patching, we advocate its use, as it enables us to do work and guarantee the results, and enables us to carry on our trade at all seasons of the year, and modernizes that part of building enterprise which has undergone practically no improvement in the last two thousand years, placing the business of the plasterer on the same footing as that occupied by the other trades through the advent of machinery
